

Vida Puebla

The newest expression from Del Maguey, Puebla makes a great base for any cocktail and invites a wide global audience to start their path into the Del Maguey portfolio.

This expression brings the heritage of Vida Clásico to the base of Puebla's volcano Popocatepetl, known as the "Smoking Mountain."

Ripe Espadín agave is roasted underground, naturally fermented in the local environment rich with volcanic minerals, and twice distilled in small copper stills.

TOPLINE TASTING NOTES:
